P R E F A C E.

THE present is the third and concluding volume of the Catalogue, compiled by Mr. E. R. J. Gambier Howe, F.S.A., of the English Book Plates bequeathed to the British Museum by the late Sir Wollaston Franks. Besides bringing down the main series to the close of the alphabet, this volume includes several minor and supplementary series, viz., one of about two hundred anonymous plates which it has not been found possible to identify; Royal plates; plates of Universities, Colleges and Schools; Premium or school-prize plates; plates of Ecclesiastical, Parochial, and Public Libraries; Naval and Military and Legal and Medical plates; with those of City Companies and Public Offices, Booksellers, and Circulating Libraries. The volume also furnishes notes of a few family plates supplementary to the main series: these have for the most part been discovered in and transferred from the Foreign portion of the testator's collection. Last comes a Heraldic Index to all those plates which, although anonymous, have been identified and inserted in their proper alphabetical places in the main collection.

The entire catalogued collection, including "Brighton" and supplements, is mounted in fifty-seven uniform albums and one of special size, containing in all 35,098 plates. In addition a small duplicate selection of specimen plates, not catalogued, has been arranged in two separate albums, in order to illustrate for beginners the several styles of English book plate design and their evolution.

SIDNEY COLVIN.

The book plate of Robert Watson, 1734

TELEPHONE
PERIVALE 4663.

Sept. 29. 1938

9, CORFTON ROAD,

EALING, W. 5.

Dear Mr Barlow,

I am most grateful

specially for the Prinz Seal note which
is new to me. Of course with the world
in its present state the Gents must take a
back seat, but I hope to use the material
I have some day.

I still occasionally get a book plate given me
and when I do I transfer any medical ones to
the R.C.S. I have a few to take up there
the next time I go. One was of interest to
me. Robertus Watson in art^h medicine &
Chirurgie Professor at Malton in Co. York.
Early chips. I know nothing about Robt. Watson,

but expect he was an amateur. Never heard
of his book plate before. It was an armorial
thing.

With kind regards, I am,

Yrs. sincerely,

R.R. James.
